

Ohio 2019 Community Activity

Our Foundation partners with thousands of caring associates, as well as national and local nonprofit organizations, that share our commitment to improving lives and communities. We do this by supporting initiatives that positively affect the conditions and social determinants addressed in our Healthy Generations program, including maternal health, heart health, diabetes prevention, active lifestyles, cancer prevention, behavioral health efforts and programs that benefit people with disabilities. **To learn more, visit www.anthem.foundation.**
