

# The 2020 Clinical Guidelines Binder

Written by pediatric specialty experts from Nationwide Children's Hospital, our collection of pediatric practice tools address over 60 topics, from the common to the complex. These materials are designed to make sure you and your team have the tools to best understand, diagnose and treat or manage today's pediatric patient population.

Request your copy of The 2020 Clinical Guidelines Binder today by returning the enclosed pre-paid postage card.
