

# How does Gerber® Good Start® SoothePro compare to other solution infant formulas?

	 Gerber® Good Start® SoothePro	Enfamil® NeuroPro™ Gentlease®	Enfamil® Enspire™ Gentlease	Similac® Pro-Total Comfort™	Similac Pro-Sensitive®
<b>+ Probiotic <i>L. reuteri</i></b>	✓	✗	✗	✗	✗
<b>+ 100% whey protein-partially hydrolyzed</b>	✓	✗	✗	✓	✗
<b>+ 2'-FL HMO</b>	✓	✗	✗	✓	✓
<b>+ 30% lactose and 70% maltodextrin carbohydrate blend</b>	✓	✗	✗	✗	✗
<b>+ DHA level at 0.32% of total fat</b>	✓	✓	✓	✗	✗

\*Human milk oligosaccharides (HMOs) are a group of prebiotics found in human milk, and 2'-FL is the most abundant HMO found in breastmilk. The 2'-FL HMO in Gerber® Good Start® is structurally identical to one of those found in significant levels in breastmilk. Not from human milk. *L. reuteri*=*L. reuteri* DSM 17938. 2'-FL HMO=2'-Fucosyl/lactose human milk oligosaccharide. DHA=Docosahexaenoic acid. Enfamil, NeuroPro, Gentlease, and Enspire are trademarks of Mead Johnson & Company. Similac, Pro-Total Comfort, and Pro-Sensitive are trademarks of Abbott Laboratories.
