

Akron Children's Hospital – Outpatient Pediatrician Opportunities

Akron Children's Hospital is the only freestanding children's hospital in Northeast Ohio and the 8th largest children's hospital in the country. To ensure our families have convenient access to care, we have 2 hospital campuses and more than 60 primary, specialty and urgent care locations across an urban, suburban and rural region of Ohio. The services and subspecialties at Akron Children's Hospital span the entire scope of medical services available today – from routine and preventative care to emerging technologies in surgery and patient care.

While we are ranked among the best children's hospitals in the country, it's our compassionate approach to treatment that makes us truly exceptional. Whether it's investing in new research, designing our facilities, or simply making our equipment kid-sized, everything we do is for our kids and their families. Through a combination of revolutionary treatments and extraordinary patient experiences, our care does more than heal. It brings the entire family together for emotional support and understanding across multiple locations to reach the communities we serve. With more than 1 million visits in 2019, we've been leading the way to healthier futures for children since 1890.

Akron Children's Hospital Pediatrics (ACHP) brings pediatric primary care close to home for newborns, children, and teens. Our primary care network has 29 offices with more than 200 providers across Northeast Ohio. Patient care is available 24 hours a day through the offices, our 24-hour nurse triage line, and our specialists.

Our offices follow standard hospital-based policies, while retaining the local culture of each practice. Our physicians enjoy the use of EPIC as a system-wide integrated electronic health record. Our primary care offices are all PCMH certified. The **Patient-Centered Medical Home** is a model of care that puts patients at the forefront of care. PCMHs build better relationships between people and their clinical care teams. Research shows that they improve quality, the patient experience and staff satisfaction, while reducing health care costs.

We are seeking BE/BC Pediatricians to join the following outpatient practices:

Fairlawn, Ohio
