

Akron Children's Hospital – Pediatrician, Emergency Department Opportunities

Akron Children's Hospital is the only freestanding children's hospital in Northeast Ohio and the 8th largest children's hospital in the country. To ensure our families have convenient access to care, we have 2 hospital campuses, regional health centers and 50+ primary, specialty and urgent care locations across an urban, suburban and rural region of Ohio, making it easier for today's busy families to find the high-quality care they need.

While we are ranked among the best children's hospitals in the country, it's our compassionate approach to treatment that makes us truly exceptional. We are a major teaching affiliate of Northeast Ohio Medical University. Akron Children's is dedicated to family-centered care, and improving the treatment of childhood illness and injury through research at the **Rebecca D. Considine Clinical Research Institute**. Whether it's investing in new research, designing our facilities, or simply making our equipment kid-sized, everything we do is for our kids and their families. Through a combination of revolutionary treatments and extraordinary patient experiences, our care does more than heal. It brings the entire family together for emotional support and understanding across multiple locations to reach the communities we serve. With more than 1 million visits each year, we've been leading the way to healthier futures for children since 1890.

Akron Children's Hospital is seeking a full-time BE/BC Pediatrician to join our expanding network. This opportunity is at our Mahoning Valley Emergency Department located at Akron Children's Hospital's Beeghly campus in Boardman Ohio. The Beeghly campus is conveniently located between Cleveland and Pittsburgh and is an easy commute from both larger cities.

Substantial capital investment and growth has created the need for additional providers to join our growing team. The successful candidate will join a well-established team of physicians who manage nearly 40,000 ER visits each year. The ER is made up a 10-bed emergency room as well as 6 Fast Track/Minor emergency beds and 2 suture/swing rooms.

Pediatricians will work with a Pediatric Emergency Medicine provider in seeing patients in the main ED and supplement coverage to our Fast Track area used for lower acuity emergency patients. While the ER is staffed by a PEM provider 24/7 and is supplemented by pediatricians and APPs, we are fortunate enough to have an ED clinical pharmacist, well trained suture staff, and PIRC (Pediatric Intake Response Center) team members to help our providers with behavioral health patients. The ER is currently in the design phase of building a new ED on the Mahoning Valley campus.

All of our opportunities offer:

- Attractive guaranteed base salary
- Starting Bonus paid upon receiving medical staff privileges
- Annual value-based bonus potential
- Comprehensive benefits package
- Occurrence based malpractice
- Relocation assistance
- Generous vacation and CME time/money
- Student loan repayment strategies through Fiducius Student Loan Financial Wellness

Candidates may submit their application and CV online at www.akronchildrens.org
