

Online Resources for Providers

We've collected some of Cincinnati Children's online tools for you, the primary care provider, and put them all in one place. You can access any of these tools by following the provided link.

Education

Continuing Medical Education

cincinnatichildrens.org/cme

Pediatric Grand Rounds
(current and archived)

cincinnatichildrens.org/gr

Epic Link

Epic Link is a free service offered by Cincinnati Children's which provides read-only access to patient information via a secure website. Epic Link allows providers and their staff to view a patient's chart and results from their computer without the need for additional software applications

epiclink.cchmc.org

Evidence-Based Care Recommendations

cincinnatichildrens.org/ebc

Family Resource Center

cincinnatichildrens.org/frc

Health Topics

Information on many pediatric conditions and treatments, including links to clinical services at Cincinnati Children's. Useful for patient education

cincinnatichildrens.org/health

Heartpedia

Popular app which allows users to view various congenital heart defects and repairs in an anatomically accurate, 3-D, interactive format. Useful for patient education; enhances understanding of the heart's anatomy and the defects that can occur

Free and available from iTunes (iPhone version) and Google Play (Android version)

Search keyword "Heartpedia"

Maps/Directions

cincinnatichildrens.org/maps

Medical Animations

Useful for patient education

youtube.com/user/cincinnatichildrens

Once in the channel, search "medical animations"

Mindpeace

Mental health resource for providers, families and kids

mindpeacecincinnati.com

Physician Outreach and Engagement

Access to a variety of practice tools and other clinical information; contact the Physician Outreach and Engagement department
